sales@printlimit.com

PrintLimit Print Tracking lets you monitor all printing activity, handle charge-backs, control who's printing and how much is being printed, and identify the costs of printing across your entire organization.

TRACK

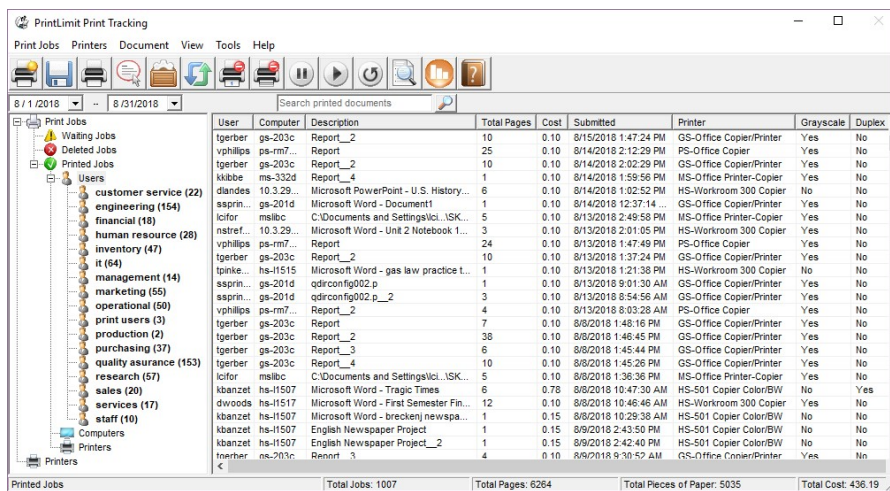

PrintLimit Print Tracking can be installed on a single computer (Windows 32-bit or 64-bit), and you can track, count and manage the printing of all other computers (Windows / Linux / Unix / Mac). It captures the detail print job information including username, computer name, printer name, document name, date and time submitted, color, duplex, paper size, job size and number of pages.

CONTROL

PrintLimit Print Tracking can restrict printing if the job exceeds the maximum allowable print limit specified for a printer or user. Further restrictions can be set by the user, computer, document title, color, job size and day/time.

It can count, quota, control and charge printing for the following types of printers:

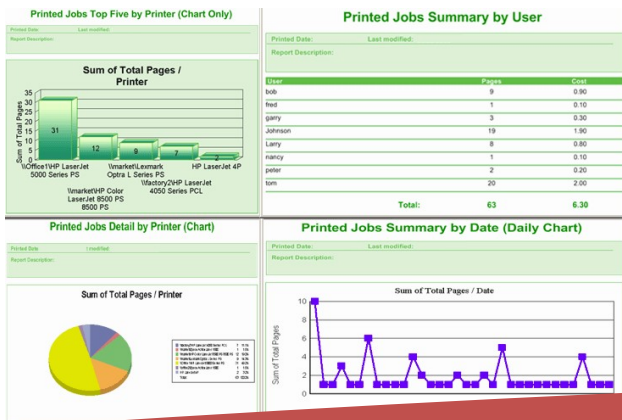

- ✓ The shared printers on the print servers,
- ✓ The printers connected to the workstations locally,
- ✓ The printers connected to the network directly via IP address without using print server (Users print to IP address of the printers).

| User | Computer | Description | Total Pages | Cost | Submitted | Printer | Grayscale | Duplex |

REPORT

PrintLimit Print Tracking provides a reporting tool allowing you to generate 100 reports that can be exported to PDF, Word, Excel and rich text formats. The reports can be created in any language and sent by email automatically. Reports are designed for your print cost analysis and client billing.

BACKUP

PrintLimit Print Tracking can save and archive a copy of all printed documents as PDF format, easy to search, view, and reprint.

SAVE

PrintLimit Print Tracking has proved fruitful for many businesses and educational facilities to manage and understand printing costs, and reduce wasted printing by 20% - 50%.

- ✓ Centralized print manager & counter and printer monitor.
- ✓ Supports both print server and direct IP printing environments.
- ✓ Supports all printer brands.
- ✓ Designed for Businesses and Education of all sizes.
- ✓ Monitor all your printers & print jobs from a single location & send alerts by email.
- ✓ Count, quota, log, audit, restrict and charge printing.
- ✓ Print authentication / client code billing in 25 languages.
- ✓ Email reports automatically or create web reports.
- ✓ View the content of waiting jobs / deleted jobs / printed jobs.
- ✓ Scan network and retrieve printer meter, toner / ink usage and serial number.
- ✓ Reprint printed jobs / deleted jobs.
- ✓ 100 reports designed for your print cost analysis and client billing.
- ✓ Generate reports automatically in any language within minutes.
- ✓ Save up to 20% - 50% in paper and toner costs.
