

# Print Cost Recovery Solutions

Copy & print control products

## VS8000 Vend Station

Ideal for use in supermarkets, post offices and convenience stores, almost any public copier access environment. The VS8000 series provides durable and dependable access to, and paying for, copies and printing.

The coin tower is connected via a machine harness to enable and pay for copies. When used in serial mode with a print release station the VS8000 allows users to pay for printing jobs sent from installed workstations in the environment.
